

File reference: Amjad Khan - [toakhan@hotmail.com](mailto:toakhan@hotmail.com) - BYB1

Graduated with a B.Sc. in Production Engineering from Leeds University, England. Have worked for thirty years with small and large automotive and aerospace manufacturing companies, as an engineer and manager.

My last job till 2018 was with Airbus UK, manufacturing Airbus Aircrafts Wings. Airbus fly-by-wire technology has always fascinated me, controlling aircraft flight using computer programming.

It has been my desire to learn programming to solve complex engineering problems. Have specialist knowledge in Quality and Lean Six Sigma manufacturing.

In this bootcamp, I am learning JavaScript, HTML & CSS. I feel there are not many specialist manufacturing engineers with programming knowledge. With this combination, I have something unique to offer. My idea is to do freelancing work and become a self employed consultant.

### Build Your Brand I: Thinking about a job search

If you're self-employed:  
Input the contact details of companies and the business contacts of places you would pitch your services or products to. Also, please fill in the section right at the end of the form.

If you are ready to apply for jobs:  
You won't actually be applying in this task, but we would like you to think about the sort of roles you might like to apply for and the sort of companies you might want to work for. Find 2 junior tech roles currently being advertised, ensuring you consider large and small companies as well as tech startups. For each of these, identify the recruiting/hiring managers (possibly the Talent or HR people at each company). Capture the details of each of the 2 roles and contacts in this form. If any of your URLs are greater than 255 characters, shorten them by using bitly.com and paste the shortened version into the form.

If you're not ready to apply for jobs yet or may even be currently employed and not looking for a new role right now:  
We still require you to identify relevant contacts and get into practice should you eventually look for a new role. However, we will NOT reach out to these employers on your behalf. Please also fill in the contact at your current company who would be involved in a change to tech.
